STATE PROHIBITION LAW IS DECLARED CONSTITUTIONAL

HIGH COURT TODAY SAYS IT IS VALID

Four Judges Hold Measure is in
Conformity With Constitution,
One Dissenting

GIVES MINORITY OPINION

Judge John Spencer of Evansville
Contends That the Law is Not
Constitutional

CASE WAS FROM EVANSVILLE

Judge Hostetter Ruled Law Was In-
valid and Case Was Promptly
Appealed to Supreme Court

(By United Press.)

Indianapolis, Ind., June 28.—Sa-
loons in Indiana must remain closed.
This was the decision of the state
supreme court today in declaring
the prohibition law passed by the
last legislature constitutional.

The law, which has been effective
since April 2, was held in conform-
ity with the constitution by four
judges. Judge John Spencer of Ev-
ansville, Ind., dissented, and in a
minority report, said that the mea-
sure was unconstitutional.

The decision was made on a test
case started by the Cook Brewing
company of Evansville and other
liquor dealers there. Judge Hostetter
of the Vanderburg county circuit
court held that the law was unconsti-
tutional and issued injunctions
preventing local police authorities
from enforcing the measure.

It was immediately appealed to
the supreme court and today's deci-
sion reversing that of Hostetter re-
sulted.

Immediately following the an-
nouncement of the supreme court
decision, authorities prepared to
enforce the law strictly. United
States District Attorney L. Ert
Slack announced that he had been
gathering evidence of violation of
the law preventing transportation
from a wet to a dry state and that
prosecution would start at once.

The court held that the contention
of the brewery that the constitution
did not give the legislature the right
to pass a prohibition law was er-
roneous.

"There is but one question raised
by the case and that is whether or

OFFICIAL SAYS THE FORMER CZAR IS DEAD

Russian Foreign Minister Notifies
German Minister in Germany
He Had Been Killed

DISPATCH FROM COPENHAGEN

(By United Press.)

London, June 28.—The first an-
nouncement approaching official
confirmation of the death of Nich-
olas Romanoff, former Czar, was re-
ceived today. Dispatches from Cop-
enhagen stated that the Russian
foreign minister in Russia dispatched
to a Russian minister in Germany
that he had been killed.

Dispatches from Stockholm said
that a Petrograd newspaper pub-
lished a report that the Bolsheviks
had been overthrown; that Moscow
had been occupied by the Germans
and that the Grand Duke Nicholas,
an uncle of the former Czar, had
been made emperor.

FOURTEEN KILLED IN RAID

Fourteen Injured and Great Material
Damage Done in Paris

(By United Press.)

Paris, June 28.—Eleven persons
were killed and fourteen injured in
last night's air raid, it was announ-
ced today. Great material damage
was done.

The enemy planes which arrived
at the city over different routes,
were subjected to the most violent
gunfire.

LITTLE DAMAGE IS DONE BY STORM

Despite High Wind and Great
Amount of Severe Lightning, Loss
in County is Not Great

BARN NEAR ARLINGTON IS HIT

Most of Wheat in the Shocks, Which
Accounts for Small Damage
Done to That Crop

The electric storm which visited
Rush county in two sections last
night was one of the most severe of
the season thus far, but failed to
reap the usual property damage and
crop loss which generally accom-
panies summer lightning and rain-
storms.

Although a heavy electrical storm
preceded both downpours which fol-
lowed each other after a short lull,
very little damage was reported. The
electric light fuses in various parts
of the city were burned out and
several telephones were disconnect-
ed. The only damage reported
through the county was in Posey
township where the lightning struck
a barn on the old Lee homestead
south of Arlington. The place is
now occupied by Mr. and Mrs. Lou
Ellison and although fire did not re-
sult, holes were torn in the roof of
the building and the weather board-
ing was splintered on one side of the
barn.

The front veranda at the home of
Mr. and Mrs. Charles Eskew north-
east of the city was also damaged
slightly by the lightning which struck
one side of the construction, tearing
the side supports down and causing
damage to the roof. Fire, however
did not result.

The steady downpour drenched
the crops for more than two hours,
but failed to cause any serious dam-
age to the wheat crop, despite the
fact that it is dead ripe. In the
southern and central part of the
county most of the grain is in the
shock, but in the northern part
where only a small portion of the
wheat had been cut, it was beaten
down to a certain extent. Although
the storm was accompanied by very
high wind, the farmers believe the
grain will straighten up again in time
to be cut and if not special farming
implements will be utilized in taking
care of that part of the crop.

The corn crop has taken on a
more favorable outlook since the
heavy rain and farmers whose crops
were damaged by the frost Saturday
evening were more optimistic today
than they have been since the frost
occurred. The fact that the rain
completely soaked the stalks is be-
lieved to be the thing which will save
that part of the crop which was
threatened with destruction.

Garden truck, especially the po-
tato and tomato vines, were beaten
down but this evening showed signs
of rising again. The new potato
crop was given a large boost by the
refreshing rain.

—Miss Leah Flint has returned
from a visit with friends in Muncie.

GERMANS TO LAUNCH THEIR FINAL EFFORT

Certain That Partial Offensive Will
be Started on North Part of
British Front

7 GERMAN PLANES DOWNED

(By United Press.)

London, June 28.—Seven German
airplanes were brought down by
British airmen Wednesday and two
others driven down out of control.
Two British machines are missing.

London, June 28.—The Germans
will soon launch their final supreme
effort, it was learned today.

It is certain that a partial offen-
sive will be started against the
northern portion of the British
front. Where the main blow will fall
is not known but will probably be
between the Ardennes region and
the Rheims with subsidiary attacks
simultaneously along the entire
front.

South Bend Man Killed

Washington, June 28.—General
Pershing reported 56 casualties to-
day, divided as follows: killed in
action, 24; died of wounds, 4; died
of disease, 3; wounded, 24; and
prisoner, 1. A. A. Janowick of
South Bend, Ind., was killed in ac-
tion.

Two Hoosiers Cited For Bravery

Washington, June 28.—Fifty more
Americans have been cited for bra-
very, General Pershing reported to-
day. Those cited include: William
Robbins of Bloomington, Ind., and
Walter Coil of Walton, Ind.

HUNGARIAN SOLDIERS CONDEMNED TO DIE

Reliable Reports Tell of Mutiny of
2,000 and of Citizens Staging
Demonstrations.

SPIRIT OF REVOLT IS STRONG

(By United Press.)

London, June 28.—The British
government today received reports
that Hungarian soldiers had mu-
tinied in interior cities and that
2,000 of the mutineers had been con-
demned to death. The government
attaches great importance to these
reports received from reliable
sources. It was also reported that
citizens have staged violent demon-
strations in various Austrian and
Hungarian towns.

The mutiny of the soldiers took
place at Pees and Győr. Pers is the
Hungarian name for the city of
Pankirchen, 105 miles southwest of
Budapest. The city has a popula-
tion of about 45,000. Győr, more
commonly known as Raab, is a city
of 28,000 population, sixty-seven
miles northwest of Budapest.

ANOTHER AUSTRIAN PEACE FEELER FAILS

(By United Press.)

London, June 28.—Another Aus-
trian attempt to throw out peace
feelers through Sweden has failed,
it was reported today, in dispatches
from Zurich.

These dispatches stated that
Austro-Hungary through a repre-
sentative in Switzerland during the
last few days, had attempted to dis-
cover the allied standpoint regarding
important questions.

The emissary failed completely
and returned to Vienna.

U-BOAT MOTHER BOAT SUNK

Captain of Belgian Relief Ship Re-
ports Sinking on Arrival

(By United Press.)

An Atlantic Port, June 28.—Cap-
tain Hobbes of a Belgian relief ship
arriving here today, reported having
sighted and sunk a derelict mother
boat to submarines 120 miles south
of Ireland.

The mother ship was built of two
tanks 400 feet long and constructed
for lowering and raising submarines
out of the water for repair work.

FOUR REGISTRANTS ADDED TO CLASS 1

Ed Jackson, Clarence Borem, Jesse
Ruefenacht and Paul McDaniel
Examined Today

MANY OTHERS RECLASSIFIED

Examinations Conducted by Dr. F.
G. Hackleman, Just Appointed
Member of Army Board

Four registrants previously grant-
ed deferred classifications and re-
classified in one by the local army
selection board, were today exam-
ined by Dr. F. G. Hackleman, physi-
cian member of the board, who to-
day received word of his appoint-
ment by President Wilson to fill the
vacancy created by the resignation
of Dr. W. S. Coleman, who has been
accepted for service in the army. Dr.
Hackleman was recommended for
the appointment by the local board.

Ed Jackson, Jesse Ruefenacht,
Paul McDaniel and Clarence Borem
were the four men moved up to class
one by the board. All had deferred
classes because of dependents, but
when conditions changed so that
they no longer had to support wives
or children, they were reclassified
and will be subject to immediate
call if they pass the physical tests.

The board has been busy all week
reclassifying registrants and has
found about fifty who can be moved
forward. Some of these are regis-
trants who were given deferred
classes by the district board on ag-
ricultural claims. The local board
has no authority to place such re-
registrants in class one, but will re-
commend to the district board that
their status be changed so that they
may be called at once.

All registrants reclassified have a
right to appeal to the district
board as in the case of original
classification. Only one of the four
being examined today appealed to
the district board—Clarence Borem
—and his appeal was denied.

Borem filed suit for divorce from
his wife Bessie Borem a few weeks
ago. It was then that the board
placed him in class one. He dismiss-
ed the suit, but soon afterwards his
wife filed an affidavit, alleging that
he was not supporting his children.
The court has ordered him to pay a
stipulated sum each week for the
support of his children. A few days
ago Mrs. Borem filed suit for divorce
and it is now pending.

McDaniel sued his wife for divorce
some time ago, which caused the
board to reclassify him. Ruefenacht
was moved up to one because his
wife has left him and Jackson was
reclassified because he is not sup-
porting his family, according to the
board. His wife was formerly Cora
Fields.

A seven pound girl baby was born
yesterday afternoon to the wife of
Alva Bitner, living east of the city.
The baby has been named, Marchena
Guffin Bitner.

RUSH COUNTY SAFELY ON HOME STRETCH IN W. S. S. CAMPAIGN

MORNING MAIL IS EARLIER

Mail and Express Trains Going on
C. I. & W. Change of Time

Beginning with Sunday, Rush
county will receive its morning mail
from the west shortly after four
o'clock off a mail and express train
which will be put on when a general
change in time on the C. I. & W.
takes effect. The eastbound train
due here at 6:08 a. m., will be taken
off, as also will be the westbound
train due here at 12:22 a. m. The
special mail and express train,
westbound, which will not carry pas-
sengers either way, about 11 a. m.
The other three trains each way
will change time, but the time they
will arrive here is not yet known.

THREE BOYS LEAVE FOR PURDUE TODAY

Charles Sherman, Ed Berry and Vir-
gil Maffett Begin Training in
Mechanics School

TWO INCREMENTS GO MONDAY

Three more Rush county boys left
this morning to do their part in the
war waged to get the kaiser. Charles
Sherman, Ed Berry and Virgil Maff-
ett entrained at 10:51 over the C. I.
& W. for Lafayette to be trained as
automobile mechanics in Purdue uni-
versity. A large crowd was at the
station to see the boys depart.

Two more increments of mechan-
ics will leave Monday, one going to
Richmond and the other to Valpara-
iso university. Homer Roberts and
Paul T. Brown were selected by the
local board some time ago to fill the
Richmond quota and will leave Mon-
day morning at 10:35 over the Penn-
sylvania. Willard Colter, John V.
Gates and Rex Readle were picked
to fill the Valparaíso quota and will
entrain at 10:51 over the C. I. & W.
Monday morning.

SEVERAL FROM OLD COMPANY B IN FRANCE

Cards Received Today Announce
Arrival of Men Who Volunteer-
ed For Overseas Duty

TWO OTHERS ALSO ARRIVE

Approximately two dozen boys
who left here last August for Camp
Shelby, Miss., with old Company B
of the Fourth Indiana infantry, have
arrived safely in France, according
to word which was being received
by their relatives here today.

Cards have been received an-
nouncing the safe arrival of Ralph
and Homer Pea, Roy Beeler, Charles
Weed, Charles and Wilbur Clemen-
ger, Charles Hoke, Clarence Track-
morton, Fay Wiley, Harry Barrett,
Donald Moore. All of these men
volunteered for overseas service
when the call came at Camp Shelby.
Other boys volunteered and some
were accepted, but so far as it is
known, these are the only ones who
have reached France.

Dale Smiley and John Heckman,
son of Mr. and Mrs. John Heckman,
west of the city, have also arrived
in France, word received today stat-
ed, but they did not leave here with
Company B.

With Two Townships Reporting Big
Oversubscriptions, Others Are
Expected to Follow Soon

NOBLE IS FIRST TO GO OVER

Anderson Township Follows Soon
Afterwards, Also With More
Than Its Allotment

BIG SALES AT POSTOFFICE

Cash Purchases Now Amount to
\$15,600, Most of Which Are
Voluntarily Made

The dawn of Thrift Day—the
zenith of the War Savings Stamp
drive—found Rush county safely on
the home stretch with two town-
ships reporting a big oversubscrip-
tion and numerous others awaiting
reports of scattered canvassers to
announce the successful completion
of their drives.

Although complete reports were
not available from all of the out-
townships today, the chairmen of
Anderson and Noble townships
where the drive has been completed
reported an over-the-top subscrip-
tion with a big oversubscription in
each district. Noble township, the
first in the county to complete the
campaign, reported yesterday short-
ly after noon and was followed a
few hours later by a similar report
from Anderson township.

The stamp sales at the postoffice
have been increasing daily and yes-
terday reached \$15,600 in cash pur-
chases. This was entirely apart
from any work done by canvassers
and comes as voluntary purchases
mostly from people in Rushville
township. Since Monday morning
\$100,000 worth of stamps have been
taken from the postoffice in sales
and this afternoon an additional
\$85,000 worth arrived, which is ex-
pected to be sufficient to supply the
demands during the remainder of
the campaign.

The meeting of the canvassers of
Rushville township which was held
last night in the sheriff's office, dis-
closed the fact that the township
had subscribed only fifty per cent
of the quota of \$125,000 and the plan
generally adopted by the workers
was to keep pounding on the same
territories until the quota was at
least reached. That the county is
on the road to success is evident in
the incoming district reports and
the committee in charge of the local
township subscriptions are deter-
mined that their district will come
up to the standard and do its share
in the drive.

The establishment of Thrift
stamp stations in the various
schools through the county have
proven successful and during yes-
terday and today children in every
vicinity flocked to the headquarters
purchasing Thrift stamps. Two chil-
dren, Arthur and Thelma Knecht,
began their purchases with War
Savings stamps.

If Your Average Load Is Less Than a Ton

THIS REO "SPEED WAGON" will serve the purpose better than a heavier truck.

FOLK USED TO THINK that the right thing to do was to buy a truck big enough to carry the heaviest load they had to deliver.

BUT EXPERIENCE has proven that the lighter truck, mounted on pneumatic tires, is the more economical.

EVEN IF YOU HAVE enough going to the same place to require two trips of this 3/4-ton Reo, you'll find you can deliver the lot in less time than by one load on a big solid tired truck.

MOST TIMES, however, there are smaller loads to be delivered to separate points.

IN THAT CASE there is simply no comparison—the speedy 3/4-ton Reo is the only way.

IN SELECTING a truck for your own particular service, figure out what is the average load and buy for that rather than for your heaviest loads. The latter are few in most lines of business.

DON'T OVERLOOK the fact that half the distance is made with the truck empty—in a great majority of cases—and the wear and tear on a 3/4-ton truck is about one fourth what it is on one of twice that capacity.

ESPECIALLY is that true if the other be mounted on solid tires.

FULLY 80 PER CENT of all hauling, both in the country and in the city, is better done—quicker, and cheaper—by this 3/4-ton Reo "Hurry-Up Wagon."

DEMAND is tremendous. Never have been able to supply all who wanted Reos. And demand for this particular type of truck is increasing by leaps and bounds as users discover its great range of adaptability.

IN A THOUSAND lines of business this Reo is proving itself the ideal type. It will do so in yours.

BUT YOUR ORDER must be in our hands soon if you desire a delivery in the near future.

TARDY BUYERS will surely have to wait or accept a second choice, for only those who decide now and order at once can hope to obtain Reos.

TODAY won't be a minute too soon.

EXPLORING PARTY TO LEAVE FOR S. A. SOON

Working Under the Direction of I. U. Exploration of Rivers Will be Made

TO GO TO PERU AND BOLIVIA

(By United Press.)

Blomington, Ind., June 27.—Prof. C. H. Eigenmann, Miss Adele Eigenmann and Prof. William R. Allen are expecting to leave this week for the Irwin expedition to Peru and Bolivia, working under the direction of Midiana University.

Funds for the expedition were provided by William G. Irwin, wealthy banker of Columbus and the University of Illinois. The latter is paying Allen's expenses. The work will be along lines outlined in 1910 by Prof. Eigenmann for exploration of South American rivers and which has been carried out to some extent since that time.

Dr. S. E. Meek, did the Panam part of the work. He was accompanied by S. F. Eidebrand, a former student.

Prof. Eigenmann, aided by Hugh McK Landon of Indianapolis and Carl G. Fisher, did the work in Colombia and Ecuadorian exploration was completed by Arthur Henn, with the financial aid of McK Landon.

The present party will devote its efforts to Peru and Bolivia. They will go through the Panama canal to about 10 degrees south of the equator, crossing the Andes from the Pacific ocean to the Amazon basin in northern Peru over Cajamarca; again in central Peru over Cerro de Pasco and again in southern Peru near Cuzco, the ancient capital of the Incas, and near La Paz in Bolivia.

HIGH COURT TODAY SAYS DRY LAW IS VALID

Continued From Page 1

not the law is constitutional," said the decision.

"It is admitted that the people of the state would have power to pass on the question if it were submitted to them for a vote by the legislature.

"If the voters of the state would meet once every two years instead of the legislature there is no doubt about the results. The contention of the appellants then is that the constitution would enforce something on the people which they do not themselves want."

WITHDRAWS FROM PARTY

New York, June 28.—Allan L. Benson, socialist candidate for president in 1916 has withdrawn from the socialist party. He charges that the party has passed into the control of foreign born leaders who are devoid of Americanism and of "anarchistic minority."

Artilleryman Gives Credit for Real Work to "Dough Boys" Who Are in Hand to Hand Fights

BEAUTIFUL FRENCH COUNTRY

"Playing around the front" seems to be a mere trifle in the exciting career of American soldiers on the French battle front according to letters received by friends of Sergt. W. B. Ringo of Brazil, who is a member of the Rainbow division of artillery now actively engaged in service.

"We are never out of the range of the guns and deafening roar and the deadly flash across No Man's Land is constantly to be seen as the whistling shells whiz all about us. With all the realistic warfare proceeding going on about us daily, however, it is still difficult to believe that the battles which are raging are of such monster size."

"We experience thrills and excitement but yet the 'dough boys' are the men who see the real hand to hand fighting," continued the artilleryman, "and who deserve the real credit. It has fallen to their lot to witness the most horrible phases of the war."

"We have excellent riding horses and sometimes when we ride through the beautiful forests and over the rolling hills from where the peaceful French landscape, which has escaped the Hun raids, may be viewed, it would be difficult to believe that so terrible a war is existing near at hand were it not for the constant rumbling which can be heard for miles behind the front."

CONTEST WINNERS TO BE DECIDED SUNDAY

Points Will be Counted to See Which Division of Gilbert S. S. Class is Victorious

EXTENDS OVER THREE MONTHS

The culmination of the contest which has been waged between the two sections of the Dr. Gilbert Sunday school class of the Main Street Christian church, will occur at the Sunday morning service when the winning side will be notified of their victory.

The contest which has for its aim an increased membership in Sunday school attendance and Red Cross work, began in April and the close of the contest will mark the end of three months which was the allotted time of the affair. The class was divided into two sections—the Red and Blue—and during the weeks which have elapsed the contest for supremacy in the points contested has been most keen. All of the class members are expected to have their contest cards ready to be handed in at the opening of the service.

FIRST UNION SERVICE WILL BE HELD SUNDAY

Meeting at First Presbyterian Church Marks The Opening of The Summer Series

REV. C. S. BLACK TO PREACH

"Signs of the Christ"—the subject of the sermon to be delivered Sunday evening at the First Presbyterian church by the Rev. Clyde S. Black of the St. Paul's Methodist church, will mark the opening of the summer union services.

The union services are annual affairs and will be conducted this year in the same manner as was adopted formerly. They will continue for five Sunday evenings and at each service the sermon will be delivered by a pastor of another congregation from that in which the service is held. The services will continue until Sunday evening August 4th which marks the opening of chautauqua. Special musical programs will be given each evening.

—Mrs. St. Clair Parry of Indianapolis, is the guest of her mother, Mrs. George Giffin, of North Park street, and her sister, Mrs. Christina Mauzy.

—Mrs. D. W. Brown of Salt Lake City, Utah, is the guest of her brother, B. F. Miller and wife of North Morgan street.

—Miss Helen Scudder will return tomorrow from a visit with friends in Muncie where she attended the annual Psi Chi Xi sorority convention.

—Mrs. James E. Watson of Washington, D. C., who has been the guest of Mr. and Mrs. E. B. Thomas for a few days, was the guest of friends in Indianapolis today. Mrs. Watson will return to Winona, tomorrow, where she is spending the summer.

—James Worster has returned from Gettysburg, Pa., where he went several days ago for the purpose of enlisting in the tank corps. Mr. Worster left with intention of enlisting as mess sergeant, but as there would be no opening for several days, he returned home.

Yankees Live In Ancient Towns

By Fred S. Ferguson.
(U. P. Staff Correspondent.)

With The American Army in Picardy, May 17. (By Mail)—The young American officer in France again is getting accustomed to wax flowers in glass cases, such as he used to see about his grandmother's house. They are part of the decoration of the room assigned to him as a billet. He is also getting blasé, and ceasing to wonder at old French mirrors that would cost more at home than the house in which they hang in France. They also are to be found in billets in villages some distance back of the line. Then there are the French beds—built so high as to make a fall precarious, and topped by fat eiderdowns.

But as you draw nearer the front, billets become scarcer and more barren. There's where officers and men hit the barns and the bare floors. That's in the reserve positions. You move up again and you may be in a cellar, if there are no dugouts.

The villages occupied by the Americans in Picardy as they were moving into the line were the oldest the France-travelled fighters from home had seen. Some of the houses were tottering to an early fall. The villages had not been shelled. The houses appeared to be tired, and were sinking down to a rest. The outer walls of some of them were of clay and straw. This apparently is an effective mixture, but it won't last long. Some of these houses had been up only 100 years or so.

With the line only a short distance away, many of the villages had been practically evacuated by civilians. There were no stores. Nothing but

EGG HANDLERS TO PROCURE LICENSE

All Commission Men, Jobbers, Brokers, Produce Buyers and Hucksters Must Have License

ALL EGGS MUST BE CANDLED

Order Is Irrespective of Exemption of Retailers Doing Business Less than \$100.000

Egg handlers other than retailers dealing directly with consumers, and including country buyers, must procure licenses at once or risk prosecution under the Food Control act. This announcement went forward today from the office of Dr. Harvey E. Barnard, federal food Administrator for Indiana, following reports of failures in many instances, of egg dealers to conform to the President's proclamation, which brought them under the provisions of the law on June 1. Dr. Barnard's bulletin announces that all commission men, jobbers, brokers, produce buyers, ear-lot shippers and hucksters must have licenses. This is irrespective of the exemption of retailers doing a business less than \$100,000 a year in volume, as obtains in other lines of merchandising.

The regulations require that all licensees must candle eggs, and certify to the candling and the date before a resale. In all events eggs offered for shipment must be accompanied by a certificate. Any dealer holding eggs for a period of 48 hours at a temperature above 60 degrees, assumes liability for the condition of the eggs, and is required to recandle and certify to their quality. In order to disseminate the requirements of the egg regulations, the Indiana Egg & Poultry Association has provided a clerical force, in its Indianapolis office, to which inquiries may be directed by Indiana dealers.

places to sleep. In the farming villages the house in France is merely incidental to the farming establishment. The barns and living quarters form a hollow square. There is the barnyard. Ducks, geese, rabbits, chickens, dogs, horses—everything but human beings.

In looking for the United States billet in a certain village you might easily have made a mistake and have gone into a horse's stall close by, but it was a good horse. The geese insisted on wandering in, so when it became evident they could not be repulsed, an entente cordiale was affected. With the barn rat, it wasn't possible to be so considerate. No one with an army mind having a rat or two running around the floor. But when the rat stops and starts to make a meal of the only pair of boots you have with you, it has gone far enough.

But the American officer is welcome in the French village. The housewife not only will do her best to make him comfortable, but all the animals join in the welcome. The barn-yard rooster will pick a place just outside his window to crow about 4 a. m. Then the dog that he petted the night before will stick his nose in the window, bark a couple of times just to make sure the visitor is awake, and beg to have his ears scratched again. All these things were done for a mere correspondent, so an officer is certain of as royal a welcome.

PREPARATORY SERVICE

The quarterly preparatory service for the communion service to be held Sunday, will be held in the First Presbyterian church this evening at eight o'clock. All members of the congregation are urged to be present. Session will meet at the close of the service.

Days Pickings

The regular monthly teachers examination will be conducted tomorrow morning in the teachers examination room of the court house. The fact that the number taking the examination during the past few months has been small doubtless will result in a large class tomorrow.

Lending and Giving

It will be well for our people to get a correct line on the various calls that are being, and will be, made on their purses before this titanic struggle is fought to a finish.

We must get the distinction between giving and lending.

In the first place, we might state that our government has not asked, and will not ask, for one cent of gift money. The extent of its call is for loans—and for loans on which it purposes to pay fair rates of interest. The man or woman who buys government bonds and War Savings Stamps does not sacrifice for the cause, in the sense in which we usually employ the word. At the most his action entails but a temporary inconvenience, in diverting his means to different channels from those in which he is accustomed to employ them. In the end he has the full worth of his money in the soundest securities on earth—the promises of the U. S. Government to pay.

But there are calls being made that entail direct giving. The activities of the Red Cross, the Y. M. C. A., the Knights of Columbus, etc. are for money from which there will be no financial return. Yet these calls must be met, and met fully and cheerfully.

Why should we support these great causes? Because they constitute the great humanizing agencies in the grim machinery of war. Their work is to remedy the physical hurt and undo the moral hurt that must inevitably result from the war. An army without the Red Cross would be unthinkable in this humanitarian twentieth century. The horrors of war, at its best, are great, but without the ministrations of the Red Cross our armies could not endure.

DOUBLY PROVEN

Rushville Readers Can no Longer Doubt the Evidence

This Rushville citizen testified long ago.

Told of quick relief—or undoubted benefit.

The facts are now confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Harrison Levi, 931 N. Sexton St., says: "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the secretions were scanty and they caused pain in passage. I also had severe backaches. Nothing ever did me any good until I began taking Doan's Kidney Pills, which I got from Johnson's Drug Store. It didn't take them long to fix me up, the pains left and my kidneys again acted regularly."

OVER THREE YEARS LATER, Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills for they have given me a permanent cure."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Levi had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—(Adv.)

Likewise, without the civilizing influences of the religious and social organizations the morals of our troops would suffer deeply. Their minds must be diverted from the grim duties of slaughter, and they be brought always to see behind the dark clouds of war, the silver lining embodied in the ideal peace conditions for which they contend.

It doesn't necessarily require great patriotism to buy government bonds. The support of these companion agencies must come from the great, generous hearts of our people.

And thanks be to a God of mercy, it is coming in a never-ending stream.

Keep Your Liberty Bonds!

It was intended by the Treasury department, in arranging for the sale of Liberty bonds of small denominations, to interest the small investor—the man not familiar with the purchase or ownership of bonds, both in this form of investment and in the government, his government, which issued them.

Terms were arranged by which the man of limited means or of small income could acquire bonds, by making small payments on the principal. This was to encourage a wider distribution and ownership.

The fact that few small bond owners have had full opportunity to appreciate the value of the bonds or the fuller significance of their possession, has influenced the "get rich-quick fellows," the promoters of speculative stocks and the downright fakers to get busy in an effort to talk the innocent and unsophisticated out of their bonds.

The very fact that the "salesmen" are so eager to trade their "gilt-edged" stocks for Liberty bonds ought to be a sufficient warning against making the sort of trades many of them propose. But apparently this is not enough, for reports from many communities in the state are that those grafters and fakers are persuading many holders of bonds of small denominations to "take something better."

A word of caution and of warning has been sent out by the Indiana executive committee of the Liberty Loan sales organization to all who may be considering a deal that will deprive them of their bonds without a fair return.

If Liberty bonds were not increasingly valuable the United States treasury could not distribute another \$6,000,000,000 worth, as it contemplates doing in October. And present plans are to make the interest rate the same as before, 4 1/2 per cent.

Therefore the Liberty bonds already distributed must be worth what they were said to be worth at the time they were issued—which means that all features considered they are the highest class of investment on earth.

Country Store-Keeper Included

There are many country store-keepers whose business is mostly retail selling, but who buy eggs and sometimes poultry from the farmers. They have never considered themselves as operators of poultry and eggs packing plants, but in reality that is what they are. The fact that they are in the retail business on too small a scale to require a retailer's license does not alter the case. In order to comply with the law they must all fill out blanks obtained from the United States Food Administration and so secure licenses.

We take no stock in the report that the "Safety First" slogan originated with the Hohenzollern boys. It had its inception among the "conscientious objectors" of our own country.

Germany having fixed the amount of the Allies' indemnity at one hundred billion marks, Foch and his armies are proceeding to inflict as many of the "marks" as possible.

War Hints— War Helps— War Duties

The nut sundae heads the casualty list this week. The soda fountains must cut out all special drinks requiring sugar syrups. Candy-makers and soft drink dispensers and housewives are expected to cheerfully obey orders these days and get ready to save more sugar. Are you using in your home more than three pounds per person per month? If so, you are sneaking a little more than your share.

The Red Cross is still looking for nurses. The campaign for the enrollment and training of nurses is to continue indefinitely.

The first agricultural training camp for boys of the Working Reserve has been opened at Purdue. One hundred boys went into camp last Monday, the 24th. They will be instructed for two weeks and then assigned to farms. Then a second group will be received for two weeks, and so on. The camp will be open until the middle of August. The boy who enters must be between 16 and 21 and have the consent of his parents to work on a farm for at least four weeks. Boys already working on farms are not asked to come. All counties should be represented. The boys will live in the frat houses at Purdue and be in charge of Dr. Stanley Coulter who is one of the friendliest souls on earth. Boys will pay their own railroad fares, but they will be housed and fed and instructed at Purdue free of charge. The volunteer who brings a musical instrument and is ready to play in the band will be received with cheers.

Save the ice. Ammonia is required in the making of munitions, and should not be used in the making of ice which is carelessly wasted. Save the man-power required for the manufacture or delivery of ice. Keep the refrigerator in a cool place and always close the doors. Don't open it except when necessary. Don't load it up with warm food. Don't think that you have to freeze your innards by slamming fragments of ice-berg into all the food and drink served during hot weather.

The State Council ventures to suggest in connection with a patriotic Fourth that the explosion of fireworks will not scare the Germans that the consumption of much high-priced food will damage not only the stomach but the conscience, and that candy and sweet drinks contain sugar. The submarine is trying to sink in the sea all the sugar we start to the allies. Don't co-operate with the subs. Stop sinking sugar.

You are in partnership with every American soldier and sailor in service, with every man under the flag of an ally, with every civilian in the regions laid waste by German cruelty. Play fair with your partners even if they have no chance to look over the books every week.

We approach the 28th of June. It comes on Friday of this week. On or before that date, every man, woman and child claiming the protection of the American flag and asserting loyalty to the great cause, is expected to be the owner of government Savings Stamps and to have delivered a pledge to keep on buying. President Wilson says that the practice of thrift in peace times is a virtue. To save in war times and to make your savings help to win the war "is a patriotic duty and a necessity."

It looks as if a good many folks who haven't been doing farm work will have to go into the fields this year. Each neighborhood will find it advisable to organize a clearing house where volunteers will register and where farmers may come for help. In working out your plans have a friendly understanding with the county agent and the County Council of Defense.

After you have bought Liberty Bonds, thrift stamps and War Savings stamps; after you have hoed the weeds from your war garden, and said good-bye to wheat flour and resolved to eat beef only two or three times a week; after you have given to the Red Cross and to the Y. M. C. A. and the Salvation Army and the Knights of Columbus; after you have had your sweet tooth ex-

"Rich Man Poor Man" Fine Picture

The thousands of admirers of delightful Marguerite Clark who have seen her "Bab" pictures, will be interested in the presentation at the Princess theatre tonight of her latest photoplay, "Rich Man, Poor Man," a picturization of Maximilian Foster's successful novel, by George Broadhurst, for Paramount release.

The story of this admirable picture deals with the fortunes of Betty Wynne, a charming girl, who after many years spent in a boarding house, enters the home of John K. Beeston, a coldhearted, selfish financier, presumably as his grandchild. Although a rich man, Beeston is a poor man in everything else, for he loves no one and every one despises him for his eccentricities and erratic temperament.

Betty brings love and sunshine into his life and he refuses to permit her to leave him even after he discovers that she has been foisted upon himself through the forgery of a man whose sole desire was to make Betty happy. Betty is the central figure in numerous thrilling scenes, and finally finds happiness in the love of a young man who really is the grandson of Beeston.

Miss Clark is splendidly supported by a large array of fine screen players, chief among whom are Frederick Warde, the famous tragedian, Richard Barthelmess, George Backus, Ottola Nesmith, Mary Davis and Augusta Anderson.

A beautiful travel picture will be shown in addition to "Rich Man, Poor Man" tonight. Tomorrow Nell Whitman and Alfred Whitman will be seen in "The Home Trail," and Ben Turpin and Polly Moran in "Sheriff Nell's Tussle."

County News

Orange

Mr. and Mrs. Austin Winchell of Indianapolis, former residents of this vicinity, are visiting relatives and friends here.

A recital was given Sunday evening by Miss Gladys Houghton at the Christian church for the benefit of the Red Cross. A good crowd attended.

Mrs. Mary Sparks and sons Lowell and Donald of Shelbyville, are visiting Mr. and Mrs. Wilson Stewart and Mr. and Mrs. T. B. Moore.

Mr. and Mrs. M. F. Schronitz and sons were dinner guests of Mr. and Mrs. W. F. Bowen, Sunday.

Mr. and Mrs. Amos Young spent Monday afternoon in Connersville.

Miss Lela Kennedy of Indianapolis spent a few days last week visiting her grandmother, Mrs. Sarah Sipe.

Mrs. Byran who was seriously ill, last week, remains about the same.

tracted and have learned to shudder at the sight of a frosted cookie; after you have cleaned up the old straw hat and patched last year's suit and sent out all the old shoes to be half soled, if you still have a surplus of patriotic zeal, you might go ahead and build a silo.

Insists That Frail, Nervous Women Can Speedily Become Strong and Vigorous

A Vigorous Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long for.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so keen-minded that they would compel the admiration of all their friends.

The vital health building elements that these despondent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started, your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Pentionate; Manganese Pentionate; Ext. Nux Vomica; Powdered Gentian; Theophylline; Oleoresin Capsicum; Kolo.

Senreco

WOULD LIST FLOUR AND SUGAR SALES REQUIREMENT FOR FIRE PREVENTION

State Food Administrator Urges Systematic Effort to Prevent Hoarding

FORMS ARE TO BE SUPPLIED

City Food Administrator Requests Grocers Sell Sugar Only to Own Customers

Dr. F. M. Sparks, city food administrator, has issued a request to Rushville grocers that they sell sugar only to their regular customers. It appears that there have been some wilful violations of the sugar regulations by people who have bought at stores where they are not accustomed to trading when they have already purchased all they are allowed at their regular trading place. For this reason dealers handling sugar are urgently requested to refuse to sell sugar to any except customers who buy regularly from them.

To secure an efficient and uniform method for controlling sales of sugar and flour, county food administrators have been directed by Dr. Harry E. Barnard, federal food administrator for Indiana, to advise retailers to adopt a plan of listing flour and sugar sales to the individual consumer. Acting on a suggestion made some time ago in which the shortage of these staples was pointed out, many counties under the direction of the county food administrator, joined in this systematic effort to prevent hoarding.

Forms will be supplied to all county administrators at once, Dr. Barnard says, upon which dealers in sugar and flour will be required to keep daily records of their stocks and sales. This record is expected to begin on July 1, or as soon thereafter as proper blanks can be distributed.

The county food administrators are admonished not to permit dealers to become negligent either in making or filing these reports. A wilful evasion of the requirements will be considered a sufficient basis for action looking to the issuance of a prohibition order which will automatically cut off all federal licenses as a source of supply.

Food administrators in adjoining counties are advised to work together in order to avoid the conflict which might otherwise arise across the county line.

Beginning July 1, Indiana goes on a strict sugar ration. In addition to statements of quantities of sugar on hand, dealers and manufacturers using or handling this commodity, will be required to give detailed information concerning their requirements, and subjects themselves to still further radical restrictions in the consumption of sugar for the months of July, August and September.

To expedite the distribution of sugar, all of which under the new regulations comes under the jurisdiction of the federal food administrator, J. E. Langer, head of the sugar division, in the office of Dr. Harry E. Barnard, federal food administrator for Indiana, has prepared a classification supplementing that effective heretofore, and will require all distribution hereafter (except that for household consumption) to be on a certificate basis. The classification is as follows:

A. Candy makers, soft drinks, soda fountains, chewing gum, chocolate and cocoa manufacturers, tobacco manufacturers, flavoring, extracts, invert sugar, syrups, sweet pickles, wines etc.

These must show the amount of sugar used during the months of July, August and September 1917, and certificates issued to them, if the statements are found correct, will be based upon 50 per cent of such average use. Ice cream makers will be entitled to 75 per cent. Certificates will be issued separately for each month's supply.

B. Commercial canners.

These will be given certificates for their necessary requirements, but any resale of sugar by them except under the express direction of the local food administrator, will constitute a violation of the regulations, and subject them to closing of business for the period of the war. Any sugar on hand at the end of the season must be placed at the disposal of the food administrator.

Farmers Prohibited from Stacking Wheat Within Seventy-Five Feet of Railroad

SUPERVISION IN HARVEST

County Food Administrators Are Active in Promoting Fire Prevention Measures

County food administrators who have been authorized to exercise a general supervision over the harvest and storage of grain, to prevent loss by fire, have been directed by Dr. Harry E. Barnard, federal food administrator for Indiana, to follow the example of John M. Thompson, food administrator for Bartholomew county, who has required that no farmer stack wheat within seventy-five feet of a railroad line, and where the field is along a railroad, to plow a furrow between the first row of shocks and the tracks. This is one of the precautionary measures such as were suggested by the Governor, state fire marshal, chairman of the state council of defense, head of the food production and conservation committee and the food administrator, in a circular issued last week.

In response to an inquiry received by Dr. Barnard from John W. Kaetzel, of Dale, Ind., R. R. 1, it was stated generally to the county food administrators today that no order requiring farmers to delay their threshing until July 1st or after, has ever been issued by the food administration or others in authority. Such delay, Dr. Barnard pointed out, would inevitably result in losses in some communities and he urged that any report that would indicate a purpose on the part of any official to interfere in any way with arrangements for an early harvest and threshing, be insistently and emphatically denied.

special appeal is made to this group to economize in every possible direction.

C. Hotels, restaurants, public eating houses (serving 25 or more persons.)

These will receive certificates on the basis of 3 pounds for each 90 meals served.

D. Bakers.

These will receive certificates for 70 per cent of the average amount used during July, August and September 1917, or alternatively, 70 per cent of that used in the month of June 1918.

E. Retail stores.

These will receive for July purchases, certificates based upon the average of sugar sold during the combined three months of April, May and June 1918. Retailers must not sell sugar to any of the other groups that is, to none except householders, without taking up the certificates of such purchases. Sales to town customers are limited to 2 pounds, and country customers to 5 pounds. The retailer is admonished not to sell more than 3 pounds per person per month to householders, whose co-operation with the retailer is earnestly sought.

Retailers may, as at present, sell 25 pounds of sugar to any one household for home canning, upon the householder certifying that he has not bought elsewhere, and his agreement to return any balance not used for canning purposes. Householders on certificate may obtain more than 25 pounds, for home canning where need is shown but in no instance will a sale of more than 100 pounds for home canning purpose be permitted without the approval of the local food administrator.

No wholesaler or refiner will be permitted to sell any sugar whatsoever except on the certificate basis. Any person in any of the above five groups, who does not file his statement promptly, will not be permitted to buy sugar for the period of the war, and action will at once be taken against any sugar he may have on hand in excess of 30 days' supply, and he will be charged with hoarding.

No firm will be permitted a stock in excess of a 3 months' supply, but less than 90 days' supply, must be held subject to the local food administrator, for distribution if necessary, depending on the remoteness from the source of supply. The food

The Test of Time

That is what a great many people of this community have applied to this store and we have stood the test. The reason we have been able to bear this test is, we have applied the same test to all of the lines of goods we handle.

Dry Goods, Coats, Suits, Carpets and Even Notions

each constitute a line of time tried and tested merchandise. In short, we handle nothing that we can not conscientiously recommend on its merits.

WOMEN'S OVERALLS

We have a complete line of Women's Overalls in plain blue, khaki and blue and white stripes.

E. R. Casady

administration will construe any attempts by dealers and manufacturers to lay up a supply, as hoarding, and upon conviction, this offense is punishable by fine and imprisonment.

"While in law the same rule might be applied to householders, the food administration proposes to rest upon the honor and co-operation of the householder not to hold more than a 30 days' supply, upon the basis of 3 pounds per person in the household," said Dr. Barnard.

PATRIOTISM FOR RESORTS

Defense Council Asks Havens of Vacationists to Assist

Summer resorts of Indiana are asked to assist in carrying out the Americanization work of the Indiana State Council of Defense, in a bulletin just issued to patriotic workers. It is proposed that the managers of the resorts put up a bulletin board upon which to convey a patriotic message, every day. A half hour for patriotic meetings, at least once per week, upon significant developments is pointed out as essential. The assignment of visitors who have seen active service at the front is deemed appropriate and pageants of historic significance are desirable. The woman's section of the State Council offers to assist where needed in furthering such a program.

A seven and one-half pound girl was born to the wife of Roy Magill this morning. The child has been named Barbara Gail.

Don't Let Worms Kill Your Hogs

The fact that your hogs or sheep are in pasture and apparently free of worms today is no proof that they will not be loaded with worms a week from now, therefore WORMS ARE PESTS which must be fought continuously and feeding ACME WORM BOUNCER from birth to maturity to your pigs and your lambs, prevents indigestion, prevents fermentation of the food. PREVENTS WORMS from breeding, prevents constipation, keeps your animals on a full and even appetite, and ALWAYS THRIVING and PREVENTS 90% of DISEASE. Saves feed—STOPS LOSSES.

FREE intestinal and stomach worms are those that do not attach themselves to the intestine or stomach. Worms which attach themselves to the stomach or intestines are properly called "blood suckers" and nothing will expel the "blood sucking worm" after they are formed.

The Thorn-Headed Worm is a "blood sucker" and nothing will expel them after they are formed. They have a mass of thorns or hooks about the head and not only attach themselves to the intestines but bury the head into and clear through the intestines. The THORN HEADED WORM can be positively prevented by feeding ACME WORM BOUNCER from birth to maturity.

The Wisconsin Agricultural College, Veterinary Department, in Poster Bulletin No. 3, July 1914, says: "Serum will not give good results if worms, indigestion and other diseases are present." This tells you that when your hogs are vaccinated, that you need ACME WORM BOUNCER just the same, in fact more, for you have spent on your hogs 50 to 75 cents per head more than the man who has not vaccinated.

P. O. Box 71

Among the many delightful social events being given by the party of girls who are spending the week at the Green camp, was the one which took place last night. The rooms of the attractive bungalow were arrayed with a profusion of wild roses gathered on the grounds around the camp, forming a pretty setting for the affair. Swimming, boating, and dancing to the strains of a Victrola were some of the pleasant pastimes provided for the entertainment of the guests and during the evening dainty refreshments of ice cream and cake were served by the charming hostesses. The guests included the following: Bruce Carr, Howard Stiers, Norman Reed, Lotus Gartin, William Pugh, William Sparks, Willard Cox, Cyril Caron and John K. Tompkins and the party was chaperoned by Mrs. Helen Pierson.

The ladies of the Sexton Missionary society met at the home of Mrs. Elsworth Kiser, Wednesday afternoon and elected officers as follows, for the coming year: Emily Kiser, president; Grace Winkler, vice president; Maude Oldham, secretary; Lora Bogue, treasurer, and the following committee were appointed by the president: program committee, Mrs. Weiss, Mrs. White and Esta Grabbis; literature, Hazel Porter; membership, Etta Blessinger and Grace Winkler; missionary tidings subscriptions, Mrs. Carrol Clifton and Frances Kendall. The July meeting will be held at the home of Mrs. Etta Blessinger.

Honoring her house guest, Mrs. Susan Hacker of Jeffersonville, Mrs. John Hittle entertained with a delightful sewing party, at her beautiful country home near Falmouth, yesterday afternoon. The rooms of the home were tastefully decorated for the occasion with summer flowers, and at the close of the pleasant afternoon, which was spent in sewing and knitting, light refreshments were served by the hostess.

Mr. and Mrs. Harry Myers entertained at dinner yesterday, at their home in North Harrison street, the following guests: Mr. and Mrs. Morton Conner and daughter Dorothy, Mrs. Oliver O'Brien and Miss Augusta Harvey of Indianapolis.

The members of the War Mothers club will be entertained by Mrs.

Saturday

War Mothers club with Mrs. Mart Spivey in North Jackson street, in the afternoon.

Food Demonstration under the direction of the Home Economics club in the sheriff's office of the court house, at two o'clock in the afternoon.

Mart Spivey, tomorrow afternoon at her home in North Jackson street. A good attendance is urged by the hostess and the executive committee of the club.

The picnic of the members of the Loyal Daughters class and the Young Men's Circle, which was to have been given at the home of Mr. and Mrs. Esta Webb, west of the city, is to be given tonight in the basement of the Main Street Christian church instead, on account of the death of Mrs. Webb's aunt.

The two quilts which the members of the Psi Iota Xi sorority are disposing of for the benefit of the Red Cross, will be awarded tomorrow afternoon at three o'clock at the Wyatt Co. store.

PROFITEERS ARE WARNED

Unlawful To Charge Flat 10 Cent Rate for Sugar

Retailers who have been charging a flat 10c per pound for sugar are risking punishment for profiteering, according to an announcement made today by Dr. Harry E. Barnard, federal food administrator for Indiana. Dr. Barnard says reports are coming from over the state to the effect that many retailers are ignoring the order that sugar profits be limited to 1c a pound. They are selling bulk sugar which costs them \$8.17 per hundred, for 10c a pound straight. Dr. Barnard says the consumer should have the benefit of a reduced proportionate price on all quantities in excess of one pound; in other words, they should have two pounds for 19c, or ten pounds for 90c.

BUY THRIFT STAMPS

Householders Are Urged To Help Conserve Ice Supply

The importance of conserving ice has been emphasized by the United States Food Administration since warm weather set in. The shortage of ammonia used in manufacturing the commodity and of man power required for service in the industry have been offered as sufficient reasons for patriotic co-operation, tending toward the eliminating of waste. Going farther Dr. Harry E. Barnard federal food administrator for Indiana, has prepared a series of suggestions to users of ice for commercial purposes and for households, that will serve, if observed, to assist in the success of the campaign. The fuel administration joins in this purpose which is prompted not by any anticipated shortage, but in the general interest and the saving of supplies essential to other important industries.

Householders can do many things that will be found profitable in the conservation of ice and assist the United States Food Administration in its campaign to prevent the wastage of ice for which ammonia, a valuable munition of war is required, and for preventing the abuse of man-power now needed for more essential industries. The following hints are the result of expert observation and scientific calculation:— The use of ice by the household in hot weather is of such assistance in preserving food and administering comfort that every reasonable effort should be made to see, families are supplied with their legitimate needs, but extravagant and unnecessary

consumption of ice should be insistently discouraged. The following points may prove helpful:

Put the ice in the refrigerator as soon as it is delivered.

Keep the refrigerator in a cool place.

See that refrigerator doors fit tight and are kept closed tight.

Do not open refrigerator doors more often than necessary. Every time they are opened the cold air pours out and the warm air that takes its place is cooled at the expense of ice.

Do not put warm food in a refrigerator. Let it first cool to the temperature of the atmosphere.

See that the trap through which the meltage passes out at the bottom of the refrigerator is kept in place. This trap is liable to become lost or broken, in which case a constant stream of warm air will flow into the refrigerator.

Ice should not be used in serving fruit and sea food. Served direct from the refrigerator, they are cold enough.

Do not put more ice than is necessary into glasses of water, tea, and other drinks. A bottle of water kept in the refrigerator will answer all requirements for cool drinking water.

Avoid detaining the ice delivery man; owing to the scarcity of help he is probably serving a larger route than ever this year. Co-operation on the part of the householder in this respect will enable him to cover a greater territory and release labor for other essential purposes.

which was along the lines of wheat substitutes, took in the use of barley flour, rolled oats, rice, corn and potato flour. There will be no demonstration tomorrow morning but tomorrow afternoon at two o'clock which will be the closing session of the lectures, a bread making class will be established for the purpose of making bread entirely out of substitutes. The demonstration which is under the direction of the Woman's Home Economic club, is an annual affair but according to the county president, Mrs. Burl Matney, the interest displayed among the women this year, rivals that at any of the former sessions.

MISS LEAH FLINT IS GRAND INSPECTOR

Rushville Girl is Elected to State Office at Convention of Psi Iota Xi Sorority.

SESSION CLOSES AT MUNCIE

Miss Leah Flint, delegate from the local chapter of the Psi Iota Xi sorority to the annual convention which was held in Muncie yesterday, was elected grand inspector of the sorority at the business session which was held in the morning.

As a war conservation measure, the numerous festivities which have accompanied the convention meets of former years, were abolished this year and aside from an informal luncheon which was served at the country club at noon, all affairs of a social nature were dispensed with.

Delegates from ten Indiana chapters were present and following the regular routine of business, plans for the year's war work were discussed and \$2,000 appropriated to be used either for an ambulance or to maintain a ward in a military hospital. The sorority has taken a French orphan to support and in addition, each chapter was urged to promote Red Cross and other relief activities to the limit.

Miss Harriet Bowman of Muncie was elected president of the sorority for the year, and Miss Helen Seuder, past grand treasurer, appeared on the program during the business session, submitting the treasury report for the 1917-18 year.

It is probable that a considerable proportion of American wounded will be transported from France to England for treatment. For that reason American Red Cross activities in Britain probably will be extended.

Shows Need Of Changing Old Methods

Miss Reba Smith of Logansport, in Demonstrating "War-Time" Recipes at Court House Today, Reveals Measuring Cup and Scales Have Come Into Their Own. Last Session Tomorrow Afternoon.

Despite the fact that the skies were overcast with threatening clouds and a heavy downpour was expected almost momentarily women from every part of the county were present for the initial session of the substitution demonstration which Miss Reba Smith of Logansport, a Purdue graduate, gave in the sheriff's office this morning.

The large attendance coupled with the eagerness and attentiveness with which the instructions of the demonstrator were received, spoke highly for the hearty co-operation which the conservation and substitution program of the government is receiving from Rush county women.

The entire series of demonstrated lectures which will continue until tomorrow evening are "war-time" recipes and under the food department of the government the course is offered in order that women of every community might be given an equal opportunity in the use of various substitutions which have necessitated a complete change in the old methods of cooking.

That the measuring cup and scales have come into their own again among the older cooks as well as those who are comparatively new at the art, is revealed for in the measuring of substitute ingredients the necessity of using the exact amount is apparent among cooks who have made a success of substitute uses, according to Miss Smith, who emphasized this especially.

The morning session was taken up with sugar substitute demonstrations featuring the use of honey, molasses and corn syrup in place of sugar. The main point of the demonstration during which various dishes were prepared, emphasized the fact that in dishes in which liquid portions may be decreased one-fourth in the increase of corn syrup the same amount.

The ginger bread, Norwegian plum pudding and Indian date cookies were the feature of the morning demonstration, showing the successful combination of barley flour and Orleans molasses, of corn starch and corn syrup and of corn meal and corn syrup.

This afternoon the demonstration

Warm Weather Clothes

Do you wish to have a trim and neat appearance and at the same time be comfortable? Visit our apparel displays and view the splendid provisions we have made for your summer comfort. Note the large varieties, extensive ranges of styles and colors, and the reasonableness of the prices.

GINGHAM PROCKS have the spotlight. Scores and scores of these beautiful dresses are here for your choosing. Extremely attractive are the styles, fashioned from handsome plaids and stripes, distinctive in every feature. You should own one or two of them. There are perhaps forty at the uniform price of \$3.50. Stout women will find plenty to fit them up to size 56.

Sheer fabrics of voile and organdie are the materials used in many of our dresses. Then there are many dressier models of georgette, crepe de chene, and taffeta that are prices very low indeed.

Wash Skirts

Wooltex Wash Skirts are demanded by the public because they are pre-shrunk. There is a diversity of models in elegant materials. They can be purchased at \$3.00 upwards. Other wash skirts as low as \$1.25.

New Blouses

New waists of georgette, voile and organdie have just arrived. Good waists are very scarce, so do not delay your choosing. Wirthmer waists are \$1.00. Welworth waists \$2.00.

The Mauzy Co.

We call the attention of our friends to the fact that we have made contract for an

PITMAN & WILSON

RUSHVILLE INDIANA

Dowagiac Steerable One-Horse Disc

The Dowagiac is in a class by itself, in advance of all other one-horse drills, because it is easily guided. The front wheel is a caster wheel permitting a short turn without lifting the drill and making steering between crooked rows easy. The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn.

With The Churches

At the First Presbyterian church the regular services will be conducted. Bible school at 9:30 and preaching by the pastor, Dr. D. Ira Lambert at 10:30 with regular communion service. The first of the summer union services will be held in the church in the evening at eight o'clock.

Session will meet at 10:15 a. m. to receive members into the church.

The Bible school of the Main Street Christian church will meet at 9:15. At 10:30 the pastor will speak on "Christian Liberty." No evening service will be held as this congregation is joining in the union services at the First Presbyterian church. Prayer and praise service will be held Thursday evening with Miss Florine Gronier as leader.

First Baptist church Sunday services: Sunday school at 9:30; public worship with sermon by the pastor at 10:45; sermon subject, "Some Benefits of Waiting on the Lord." For a time there will be only one service a day and it is asked that all put their energies into that service and make it all that it should be.

The First United Presbyterian church will have combined service at ten o'clock. Sabbath school will be followed by the observance of the Lord's Supper at the preaching hour.

How This Little Boy

Recovered Strength After Sickness

Garrett, Texas.—The measles left my little boy aged nine years in a very weak, run down condition—he coughed a good deal, and as medicine did not seem to help him, we finally took him out of school, and thought he would never be strong again. One day I read about the cod liver and iron tonic known as Vinol, and such a change as it has made in my little boy—it stopped his cough, he is now back in school, strong and well.—Mrs. E. A. Wright.

There is nothing like Vinol to restore strength, appetite and vim to pale, sickly children. We strongly recommend Vinol for this purpose.

F. B. Johnson & Co., and Druggists Everywhere.—(Adv.)

COUNTY QUOTAS DISTRIBUTED

Will Amount to Twenty Per Cent of Each Bank's Resources—to be Converted Into Bonds

Lon Link, president of the Rush County National bank, has been appointed county director of sales who will handle the sales of short term treasury certificates of indebtedness for banks, according to an announcement from the Indiana headquarters of the seventh federal reserve district at Indianapolis.

The appointments were made by the federal reserve bank on the recommendation of the executive committee of the Indiana Liberty loan organization and many of the directors have already begun the work of distributing each county's quota of short term certificates to the banks.

In general the quota of short term certificates to be purchased by each bank in the country during the period prior to the Fourth Liberty loan bond campaign, which is expected to start in October, will be 20 per cent of the bank's resources.

In the 68 counties which make up Indiana's part of the seventh federal reserve district the banking resources are estimated at a total of \$585,656,055. Of this total, roughly, 20 per cent must be subscribed if Indiana is to continue to stand by the war.

Many bankers throughout the state are already distributing parts of the quota of their bank to investors who have free money now, or who will have free money in the next few weeks on the theory that the short term certificates thus purchased, eventually will be converted into the long term government indebtedness represented by the Fourth Liberty Loan Bonds.

At 7 p. m. the young people will meet and at eight the congregation will join in the union service in the First Presbyterian church.

At the Carthage Fletcher Methodist church, "The American Soldier and His Achievements" will be the subject of the sermon which will be preached at the morning service which will take the appearance of a patriotic meeting. The services will be conducted by the pastor, Rev. Daniel Ryan.

The services at St. Mary's Catholic church will be conducted by the pastor, the Rev. M. W. Lyons. Morning services at eight and ten o'clock with vespers and benediction at three o'clock in the afternoon.

Arlington Methodist church: Bible school, 9:30 a. m.; preaching by the pastor, 10:30 a. m.; official board conference, 7:30 p. m.; stereopticon review of the last quarter's Bible school lessons, 8:30.

Pleasant Ridge Methodist church: Bible school, 9:30 a. m. Sunday. The Epworth League will hold a patriotic service and flag dedication at eight o'clock Tuesday evening.

Homer Christian Union church, P. O. Ort, pastor: Sabbath school, 10 p. m.; no other services. A week from Sunday there will be preaching services at 11 a. m. and 8 p. m.

Elder John R. Dailey of Indianapolis will preach at the regular Primitive Baptist church Saturday evening at 7:30 o'clock and Sunday

Chaplain of Base Hospital No. 32 Tells of "Moving In"

By BISHOP JOSEPH M. FRANCIS. (Formerly of Indianapolis now chaplain of Base Hospital No. 32 in France, composed of Indiana Nurses physicians and attendants.)

The long expected day arrived at last. The period of waiting has been long and weary. Having calmly braved the dangers of the sea its storms and its submarines, we were filled with enthusiasm for the work for which we had enlisted. No one ever put the hope into words but I think there was a general feeling that we should be in it "as soon as we reached our appointed place." The commanding officer was alone supposed to know our destination and he received the information only on the departure of the train from the port of embarkation. As a matter of fact, the luggage vans attached to our special were clearly marked with the name of the town to which we were bound but the name did not suggest much to those who saw it. Speculation was rife as to what we should find on our arrival, what provision would be made for us.

It was the middle of the night as the train pulled into the little station in the small mountain village. Deep snow covered the ground the temperature was frigid or, more exactly arctic. After a while we were marched to a building where hot coffee was said to be awaiting us. We gathered in a large room and around a stove—a typical French stove—which warmed rather by suggestion than by any heat that it radiated. In course of time, we marched off again to our quarters in a big building, where we went to bed between clean sheets and well nigh froze for the balance of the night.

With the buildings already here it seemed an easy matter to take possession, move in and go to work. But we were ignorant of the formalities that had to be gone through—the signing of leases, the inventories to be made, the removal of the furnishings and substitution of hospital materials, and repairing or installing of plumbing, the securing of stores and so forth. Well, to make a long story short, we were three months in this state of getting ready.

How slowly the time passes: The great war was going on and we seemed to be doing nothing. We were impatient. Then one day, a telegram came. A train load of wounded American soldiers would arrive the next day at 5 o'clock. The electricity that carried the message must have jumped the wires and entered into the personell of Base Hospital No. 32. Everything now was ordered activity, trained preparation. Each one knew what he was expected to do. Ambulances were requisitioned from other base hospitals in the vicinity, guards were placed about the station platform to keep back the inquisitive crowd, the stretchers with their bearers and the doctors assigned to the duty of detaining the patients were in their places. A whistle blew, all

at 10:30 a. m. and 7:30 p. m.

Manilla Methodist church: Bible school, 9:30 a. m.; address on national prohibition by J. Raymond Schmidt at three o'clock in the afternoon.

The services for the United Presbyterian church at Glenwood will be Sunday school at 1:30 and preaching at 2:35.

Franklin Methodist church: Preaching by the pastor at three o'clock in the afternoon.

eyes turned expectantly and then a U. S. Red Cross Hospital Train ran quietly alongside the platform.

Have you ever seen a Red Cross train? Then you know how your heart thrilled at the sight for it is something of which an American may justly be proud. It is a train equipped with every convenience and contrivance for the comfort and care of the sick and wounded—scrupulously clean, sanitary, airy, attractive.

Without the slightest confusion the stretchers came first were tenderly lifted and carried to the waiting ambulances which rushed away to the hospital, designated by the tag on each patient. Others, not seriously wounded were helped across the platform to the ambulances and still others walked the short distance to the nearest hospital.

Within the hospitals, all were busy—doctors, nurses, orderlies. The wards were brilliantly lighted. The beds white and attractive. Among the patients were some who had been wounded by shrapnel; and high explosive shells, others who had been gassed. For each one the immediate necessary treatment for relief and comfort was given. The doctors worked over him. The nurses were splendid. From the men not a complaint was heard. They bore their sufferings not so much stoically as heroically.

Two of those brave fellows are now laying in a little church yard on the hillside overlooking the village. They were buried with full military honors.

CANNERS OF STATE DELIVER THE GOODS

Indications Are That 60,000 Bushels of Tomatoes Will be Put up in Indiana

BOYS WORKING RESERVE HELP

Indianapolis, Ind., June 28.—Indiana has delivered the goods again. In the spring the canners of the state acting under direction of the food-production department of the United States government called for a production of 52,000 bushels of tomatoes.

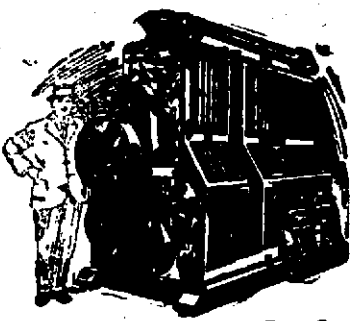

This was a tremendous increase over a year ago when only 36,000 bushels were produced in the state.

The labor question was the principal one which confronted the producers. This was overcome however by the Boys Working Reserve. Tents were provided for the boys by the canners and physicians furnished to look after their health. There appears to be little further trouble in sight on this score and indications are that the crop will be near 60,000 bushels.

COAL CONSUMERS MUST BUY WINTER SUPPLY NOW

Consumers must buy their winter supply of coal during the Spring and Summer for the reason that it is to be distributed at a discount and the country called to mind a winter coal shortage this winter.

WANT ADS BRING RESULTS BUY THRIFT STAMPS

During the period of the war, you will not only get an American flour, but you will also get the best of a country's flour, or our Government, with flour and food.

DO YOUR BIT. Help the Government by saving the freight on wheat and flour. Reduce the railroads of this country by establishing in your community one of these wonderful American Midway Roller Flour Mills.

And Make Money, Too

\$150 to \$1,000 per month can be made with this permanent, substantial and dignified business.

This wonderful self-contained roller mill is revolutionizing milling. Makes splendid flour at a better price than the Government requires. One man without previous milling experience can run it successfully. Small cost. You can start your operation with the small size if you have \$2,000 to \$5,000 in cash. You can start your operation with the large size if you have \$10,000 to \$20,000 in cash. You can start your operation with the large size if you have \$10,000 to \$20,000 in cash.

Our Service Department inspects your product each month free and issues you a quality. Size of mills from 16 to 160 barrels per hour. You can start with the small size if you have \$2,000 to \$5,000 in cash. You can start your operation with the large size if you have \$10,000 to \$20,000 in cash.

ATTEMPT TO CURB THE CHAIN LETTER

They Are Again Used, This Time For War Work—Disapproved by Defense Council

FOR HOSPITAL FOUNDED

War Savings Committee Frowns on This Method of Spreading Stamp Publicity

The old chain letter gag is being used again, this time to secure funds for the founding of a hospital in France and to boost the sale of War Savings stamps. The State Council of Defense has asked the County Council of Defense to warn the people against these two forms of chain letter.

The chain letter regarding the founding of the hospital set out that for every \$16,000 raised, the Red Cross will give \$2,000 in cash. This is the part of the letter to which serious objection is raised because the Red Cross never agreed to give any sum to a project of this kind and the letter is said to put the Red Cross in a false light. For this reason recipients of the letters are asked to ignore them.

The series of letters ask that each person receiving one donate 25 cents or more and that he write five of the letters and forward them to friends and the friends are expected to do like wise. The letter set out that the hospital to be founded is for the treatment of wounds in the face and jaw. The council of defense states the letter originated with the French consul in Seattle, Wash., and was not authorized by the French ambassador to this country.

In regard to the chain letters used to boost the war savings campaign, the treasury department states that the use of this method is disapproved and that their use was not instigated by the national committee. Regarding the breaking up of the chain letters, the State Council of Defense has issued the following:

"A series of chain letters is being circulated for the purpose of founding a special hospital in France for the treatment of wounds in the face and jaw." The chain letter states that "for every \$16,000 raised by the American committee, the American Red Cross will give \$2,000 in cash." Recipients of the letter are requested to write five more letters and to send 25 cents to the French consul, Seattle, Washington. This chain letter was started by the French consul through a misunderstanding on his part. The American Red Cross states they have never agreed to give any money to this cause, and they, as well as the French ambassador to this country, are anxious that the chain should be broken up. "The treasury department has authorized the following statement: 'Chain letters, which in the past have been used to get funds for worthy purposes and for some unworthy ones, have been started by some enthusiastic workers for the sale of War Savings stamps. The treasury department has officially disapproved their use, and the National War Savings committee wishes the public to understand that these letters were not instigated by the national committee.'"

4TH OF JULY CELEBRATION

To Consist of Less Noise and More Patriotism

Indianapolis, Ind., June 28—Celebrations of the Fourth of July in Indiana will be with less noise and more patriotic fervor than in recent years, according to reports from various cities today. The celebrations will be marked by intensely patriotic celebrations and lack of fire works. Practically every city has provided for the prevention of the use of fireworks.

At Ft. Wayne the equestrian statue of Anthony Wayne will be unveiled with a great celebration participated in by Ohio, Indiana, and Michigan. Twenty thousand school children will participate.

Mrs. Cora Matney who recently underwent an operation at the Memorial hospital in Connorsville, is recovering slowly from the effects of the operation.

RUSHVILLE BOY WOUNDED IN RAID

William J. Weidner Receives Gun Shot Wound in Wrist During German Assault

ATTACK ON SAMMY TRENCH

Receives Wounds While Watching Movements of Boche From Edge of a Woods

Caught in the midst of a lively "two step" of Hun gunfire, Corporal William J. Weidner, a former Rush county boy who is in the midst of the fray on a western battle front, was wounded by gun shot fire a few weeks ago, and is now recuperating somewhere in a French hospital.

Corporal Weidner who enlisted several months ago, has been on the French firing line for many weeks and his letters which relatives here have received have been filled with the excitement of "Hun hunting" which the former local boy has entered into with the enthusiasm which has marked similar undertakings of American youths.

"It was on the morning of May 4," stated the young soldier in his story of the raid, "when the Huns started a lively two-step with their heavy guns, most of it going on our right, left and rear. We thought their idea was to cut us off from our supports and then attack, and as our trench was in the midst of a small thicket of trees, we thought it best to move to the edge of the clump of trees in order that we might observe their movements."

"Our squad is composed of two auto rifles with three men to a gun. One gun was on the right and one on the left. I was to direct the fire of one gun and my pal, Corporal Runyan the other, but in the darkness we both got back to the same gun. As we were kneeling on the edge of the thicket straining our eyes for the Huns, something hit my wrist like a ton of brick. My pal bound up my wounds and I was hurried to a hospital where I have received excellent attention."

WASTE IN THRESHING WHEAT TO BE AVOIDED

Rush County Farmers to Meet in Court House Saturday Evening To Discuss Subject

GREAT AMOUNT LOST YEARLY

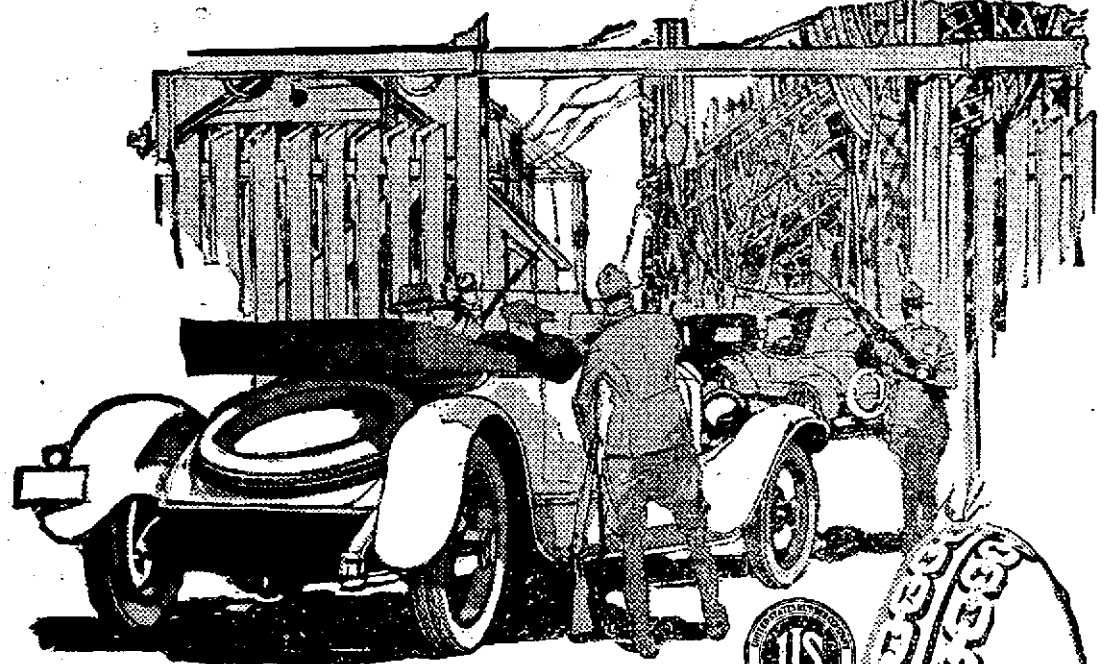

"Waste in the threshing of the wheat must be avoided in Rush county this year if farmers are to do their share toward the saving of a million bushels of wheat which is lost yearly by careless threshing," declared Marion Detrick, county agent today, who has taken preliminary steps in a county thresherman's conservation program.

A meeting of all the threshermen of the county has been called for Saturday evening at eight o'clock in the sheriff's office when the government requirements will be explained to them. The meeting is being called under the direction of the thresherman's committee which is composed of Fred Lightfoot, M. F. Lovett and Marion Detrick.

The various methods in which a great amount of wheat which is lost yearly in the process of threshing, might be saved in Rush county will be explained to the men attending the meeting, from which the farmers will be able to derive a great amount of benefit.

SUGAR MUST BE SAVED!

A teaspoonful more nothing to say, yet a heaping teaspoonful saved each meal for 120 days for each of the 100,000,000 persons in the United States makes a pile as big as the White House building enough to supply the entire armed forces of the nation.

The War-Time Value of Good Tires

Your car is a vital war-time necessity if you make it contribute to war work and war service.

Make it give the limit of service.

But don't add one extra dollar to your driving expenses.

War-times makes economy imperative. Practice it in operating your car or truck.

Keep down your tire costs.

Use good tires—United States Tires.

Increasing thousands are recognizing the war-time value of United States Tires.

They are getting away from haphazard tire buying.

They are buying mileage—choosing tires that give most miles per dollar.

United States Tires offer supreme dependability and unapproached economy.

There are five different types of United States Tires—one for every possible need.

The nearest United States Sales and Service Depot dealer will tell you which one will serve you best.

United States Tires are Good Tires

We know United States Tires are good tires. That's why we sell them
